EMBLEM

The University emblem consisting of two concentric circles, with the inner circle divided into two halves, one half showing the rising sun the other depicting the waters and a hundred petalled lotus emanating there from symbolizes the biunity of knowledge and action, whole and part and time eternity. The Rigvedic hymn in the space between the upper circumferences of the two circles is a prayer all powers auspicious, and an invocation of all intentions noble, all actions good and all wisdom serene. The circle, the sun, the waters and the lotus in the emblem are all archetypes of wholeness. The mandala is a familiar motive of Indian art and iconography. The Vedic supernal sun and the surface of the mythic lotus are circular in shape (mandalakara). The supernal sun is verily the Person (Purusha) the Divine Being, the all-whole, divided into four parts, one representing the three worlds of earth, sky and space (bhutani) and the remaining three, that is the major part representing Heaven and Immortality (amritam divi). It is this all-whole (akhanda mandalakaram) that the part (ams'a), that is man, perennially craves to unite with, through right knowledge and right action (Karatub). The Vedic hymn then expresses nothing more nor less than the universal human yearning for right knowledge, right intentions and right action (bhadrah kratavo) to come to him from all cosmic and supra cosmic corners. And it is this ideal of right intention that they seek to inculcate among their alumni. The lotus is again the seat and seed-bed, in Indian mythology, of the goddess of knowledge (Sarswati). The waters are the ultimate source from which all manifestations proceed and are appropriately depicted in myth and art as the residue (shesha), the irreducible unknown and unshown to which everything known and shown can be reduced. The residue (shesha) is analogically the non-residual (ashesha), the endless whole (ananta). The traditional art motifs reproduced in the emblem only intend to express and reinforce the symbolism of the Vedic hymn which our founding fathers had rightly selected as our motto.

Vice Chancellor

It's through unstinting efforts and the grand vision of the founders and predecessors that Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur has attained the hallowed heights in the academic arena and created a place of eminence as a premier academic institution of Uttar Pradesh, right from its inception, in 1956 as the first University under the State Legislature of Uttar Pradesh post-Independence, it has attracted faculties from far off corners of the land who created their own spaces of the global level. The alumni thus produced earned laurels in diverse areas and distinguished themselves in various high positions. The setting in the rich agricultural heartland, the spiritual and philosophic tradition and political alertness have combined to create a unique cultural perspective that has seamlessly traversed the old with new and local with global. To envision the University as a centre with international connections is just a corollary, an idea whose time has come, albeit amidst a global pandemic. These disruptions can be source of great change and scope of innovation as proven in the course of human history. I wish to bring the University prominently not only at the national map but it should also have global prominence. Various new short term and long-term courses like B.Sc. (Ag.), Engineering, Centre of Startups and Entrepreneurship designed and started in current academic session keeping in view opportunities and of employment generation. Our continuous efforts towards new paradigms involves a commitment to ensuring excellence in research, among other measures, a fellowship programme with payment of stipend is enacted in this academic session. Earn while learn is perhaps the most revolutionary platform for work-based learning. The University is honoured to support this programme.

With best wishes,

Prof. Rajesh Singh
